

Bureau of Labor Statistics, Department of Labor. (2022, December 21). Occupational Employment and Wage Statistics (OEWS) Survey. *May 2021 OEWS Estimates*. <https://www.bls.gov/oes/>

(specifically this information data set) <https://www.bls.gov/oes/current/oes252021.htm>

Purpose

Elementary School Teachers, Except Special Education

- This data is important to me because it involves my future occupation. This is something that is going to follow me the rest of my life, and where I end up can possibly play a factor due to this data and the income brought by teachers. This data set includes information about the wages of teachers that varies by state. It also includes employment

Format

- List of all the columns I care about
- Header with description
- Looks like a table

Annual wage mean	This is the annual wage mean by each state in the United States. It describes what each states average teacher makes in a year.
Employment per thousand jobs	This represents how many jobs for Elementary School Teachers, Except Special Education per 1,000 jobs in the area (or state in this case)
State	This describes what state the information I am receiving is from. United States specifically
Employment	This describes how many people are employed in each state maintaining the title Elementary School Teachers, Except Special Education
